ACKNOWLEDGEMENTS

The IST Panel wishes to express its thanks to the Canadian members of the RTB for the invitation to hold this Workshop in Toronto.

The workshop committee thanks the Canadian Forces College (CFC) for hosting the workshop at its facilities. We also thank PO D. Roach's coordinating efforts. We thank our two outstanding keynote speakers, Capt. (N) D.W.K. Knight (Canada), and Col. (Ret.) T. Johansen (Norway) both of whom also volunteered to discuss detailed issues in open fora with all workshop participants. We thank Lt. Col. Alain Gouay, FAF, (NATO RTA) for his organizational and administrative support.

We thank Monique Rose, Defence R & D Canada – Toronto who worked long hours, both before and during the workshop, to make life easy for all the participants. We also thank Lt. Andrea MacDonald (Canada) for her assistance, especially with respect to recording and collating plenary discussions. We thank Officer Cadet D. Richard (Canada) for collecting and distributing workshop submissions among reviewers.

We thank Bill Cunningham (US) for his willingness to help us as technical evaluator and reporter (TER) and for his dynamic interaction with workshop participants and his provocative style.

Finally we thank all workshop participants, who helped shape the workshop's final product, including especially the fruitful output of the interactive working groups. We also thank those participants who exerted extra effort after the workshop to finalize the working group reports.
